

EuSoMII

EuSoMII Annual Meeting

9 - 10 October 2026 Heraklion Crete

SCIENTIFIC PROGRAM

DAY 1 – 9 OCT 2026

08:00 - 08:40	Registrations			
08:40 - 09:00	Welcome Note		Daniel Pinto dos Santos/ Michalis Klontzas / local authorities	
09:00 - 10:00	Educational Program I - Level I			Post-Market Surveillance: A How to Guide
5 min	Introduction	Peter van Ooijen + Alessia Guarnera		
25 min	Didactic Lecture 1-1		Renato Cuocolo	AI Medical Device Post-market Surveillance Regulations
25 min	Didactic Lecture 1-2		Charlotte Brouwer	Implementation and QA of Artificial Intelligence in Radiotherapy
5 min	Discussion			
10:00 - 10:20	Break/Poster Discussion (20')			
10:20 - 11:20	Educational Program II - Level I			Coming soon to a radiology department near you: Agentic AI
5 min	Introduction	Elmar Kotter + Tugba Akinci D'Antonoli		
25 min	Didactic Lecture 2-1		Keno Bressemer	From LLMs to Agentic AI
25 min	Didactic Lecture 2-2		Michalis Klontzas	Applications of Agentic AI in Radiology
5 min	Discussion			

11:20 - 11:40	Break/Poster Discussion (20')			
11:40 - 13:00	Scientific Session 1	Matthias Dietzel + Konstantina Giouroukou (YCC)		
12 min	EIBIR		Agnieszka Skwara	AI in Medical Imaging: Current Initiatives and Future Funding
10 min			Antonis Billis	Improving Urologic Cancer Care with Artificial Intelligence Solutions – The COMFORT platform demonstration
6 min			Daniel Kvak	Artificial Intelligence-Supported Early Detection of Lung Cancer from Chest X-Ray in Routine Clinical Practice: Prospective, Real-World, Multicenter Study Across Czech Hospitals
6 min			Lotte J.S. Fleurkens-Ewals	Pre-diagnostic visibility of pancreatic and periampullary tumors on CT and MRI: the potential of AI assistance in early detection
6 min			Nikolai Smirnov	Medical images Annotators. Who we are?
6 min			Lingxuan Wang	Develop a Radiomics model for Predicting Second-Look Ultrasound Visibility (SLUS) of MRI-Detected Breast Lesions
6 min			Sandra Bernaus	Uncertainty-Aware Segmentation and Vascular Invasion Assessment in Pancreatic Cancer: Results from the CURVAS-PDACVI 2025 Challenge
6 min			Emanuele Barabino	Are radiomic features true biomarkers? Mapping the physics-driven reliability landscape
6 min			Daniel MacRae	Towards a multi-toxicity deep learning toxicity modelling approach for head and neck cancer patients
6 min			Ramprabananth Sivanandan	Multi-Centre Post Deployment Monitoring of Safety-Critical Events in a Redesigned Trauma Workflow
10 min	Q & A			
13:00 - 14:00	Lunch Break (60')			

14:00 - 15:30	Keynote I and Roundtable Discussion			
5 min	Introduction (5')	Merel Huisman		
40 min	Keynote Lecture (40')		Florence Doo	Sustainable Intelligence: Can Radiology AI be Green, Global, and Generational?
45 min	Roundtable Discussion (45')		Merel Huisman, Florence Doo, Susan Sheldermine , Kevin Groot Lipman , Ali Tejani	
15:30 - 15:50	Break/Poster Discussion (20')			
15:50 - 17:00	Joint Session 1: EuSoMII meets ESNR			
5 min	Introduction (5')	Emanuele Muscogiuri + Caterina Giannitto		
30 min	Joint Lecture 1-1		Myriam Edjlali	Human and Artificial Intelligence: Towards neurotechnologies for brain computer interfaces
30 min	Joint Lecture 1-2		Dennis Hedderich	The use of normative brain volume reports in neuroradiology
5 min	Discussion			

DAY 2 -10 OCT 2026

09:00 - 10:00	Educational Program III - Level II		Economics of AI: Global Perspectives	
5 min	Introduction	Lisa Adams + Alessia Guarnera		
15 min	Didactic Lecture 3-1		Steven Wong	AI in Radiology Across the Asia–Oceania Region: Trends, Adoption, and Strategic Priorities
15 min	Didactic Lecture 3-2		Tugba Akinci D'Antonoli	Economic Value of AI in Radiology
15 min	Didactic Lecture 3-3		Mansoor Fatehi	AI development in Economically Deprived Situations
10 min	Discussion			
10:00 - 10:20	Break/Poster Discussion (20')			
10:20 - 11:40	Scientific Session 2	Claudio Fanni + Pinar Yilmaz		
6 min			Marlene Fritzsche	Large Language Models Share a Common Cognitive Hierarchy in Radiology
6 min			Daniel MacRae	Evaluation of Uncertainty Quantification Methods for Deep Learning Normal Tissue Complication Probability Models in Head and Neck Cancer Patients
6 min			Rocco Barone	Governance as an Enabler of Clinical AI: Translating Artificial Intelligence Policy into Deployable, Traceable Radiology Systems
6 min			Konstantinos Vrettos	The landscape of open-access models in Radiology: Insights from the OpenRad database
6 min			Francesco Farioli	BraTS-ReportX: A Structured Clinico-Radiological Dataset for Semantic Supervision in MRI Glioma Segmentation
6 min			Luca Di Palma	Can Large Language Models Assign BI-RADS correctly? A multicentre

				application on 51,388 mammography reports
6 min			Benoit Rizk	Referral Indication Integration in Fracture Detection AI: Quantifying the Clinical Cost of Context Blindness in a Multi-Site Real-World Deployment
6 min			Sergey Morozov	Temporal Misalignment Between AI Output Delivery and Radiologist Workflow: A Multi-Cohort Analysis and Informatics Framework
6 min			Yashbir Singh	CT-Based Deep Learning for Hepatic Decompensation Prediction in PSC: DenseNet versus Supervised Contrastive Learning
6 min			Jimin Nam	Automated 3D Morphometry for Improved Aortic Monitoring and Non-Circular Diameter Tracking in Marfan Syndrome
6 min			Su Hwan Kim	Knowing the Odds: Education on Accuracy Metrics Reduces AI Overreliance in Cerebral Aneurysm Detection
14 min	Q & A			
11:40 - 12:00	Break/Poster Discussion (20')			
12:00 - 13:00	Joint Session 2: EuSoMII meets SIIM			
5 min	Introduction	Erik Ranschaert + Merel Huisman		
25 min	Joint Lecture 2-1		Alexander Towbin	PACS 3.0 and the Emergence of Workflow Intelligence
25 min	Joint Lecture 2-2		Ali Tejani	Autopilot or Co-pilot? Evolving Paradigms Shaping Human-AI Interactions
5 min	Discussion			
13:00 - 14:00	Lunch Break (60')			
14:00 - 15:00	Keynote II	Daniel Pinto dos Santos		

5 min	Introduction (5')			
40 min	Keynote Lecture (40')		Henrique Martins	i2XiA: two projects getting us ready for the European Health Data Space: and you?
15 min	Discussion (15')			
15:00 - 15:20	Break/Poster Discussion (20')			
15:20 - 16:10	Joint Session 3: EuSoMII meets EFRS			
5 min	Introduction (5')	Christina Malamateniou+ Hendrik Erenstein		
20 min	Joint Lecture 3-1		Mark McEntee	The role of the Radiographer in imaging informatics across Europe
20 min	Joint Lecture 3-2		Duncan Munro	A Thread in the AI Labyrinth: A Delphi-Based Curriculum for the Modern Radiographer
5 min	Discussion			
16:10 - 16:30	Break/Poster Discussion (20')			
16:30 - 17:30	Joint Session 4: EuSoMII meets MICCAI			
5 min	Introduction (5')	Roberto Cannella + Michaela Cellina		
15 min	Joint Lecture 4-1		Camila Gonzalez	Safe Integration of Radiology AI Tools in the Open Clinical World
15 min	Joint Lecture 4-2		Daniel Truhn	Beyond Reports: Large Language Models and Agentic AI in Medical Imaging
15 min	Joint Lecture 4-3		Marius Lingurar	Rare Data, Real Impact: AI for every child
5 min	Discussion			

FACULTY

Adams	Lisa	DE	Ass Prof	Technical University of Munich
Akinci				Department of Diagnostic and Interventional Neuroradiology,
D'Antonoli	Tugba	CH	Dr	University Children's Hospital Basel
Barabino	Emanuele	IT	DR	IRCCS Ospedale Policlinico San Martino
Barone	Rocco	ES	Dr	Healthcare Innovation: Radiology, Surgery, Cardio, AI, Digital Health
Bernaus	Sandra	ES		Candidate specializing in radiological imaging and artificial intelligence, Barcelona
Billis	Antonis	FR	Dr	Lab of Medical Physics and Digital Innovation, Medical School, Aristotle University of Thessaloniki
Bressem	Keno	D	Ass Prof	Assistant Professor in Radiology & Attending <i>Radiologist</i> at Technical University Munich
Brouwer	Charlotte	NL	Dr	Medical Physics, Radiation Oncology
Cannella	Roberto	IT	Dr	Università degli studi di Palermo - Italy
Cellina	Michaela	IT	Dr	diagnostic radiology
Cuocolo	Renato	IT	Prof	Department of Medicine Surgery & Dentistry - University of Salerno, Italy
Di Palma	Luca	IT	Dr	Ospedale Pediatrico Bambino Gesù, Rome
Dietzel	Matthias	D	Dr	Institute of Radiology, Universitätsklinikum Erlangen
Doo	Florence	US	Ass Prof	Director of Innovation University of Maryland Medical Intelligent Imaging (UM2ii) Center
Edjlali	Myriam	F	Ass Prof	Neuroradiologist, MD, PhD Student, Université Paris Cité, Paris
Erenstein	Hendrik	NL	Dr	Data Science Center in Health (DASH), Hanze - Groningen NL
Farioli	Francesco	IT		Radiology specialist, and researcher focusing on Radiology, Neuroradiology, Artificial Intelligence in medical imaging
Fatehi	Mansoor	IRAN	Prof	Virtual University of Medical Sciences - Teheran IRAN
Fleurkens - Ewals	Lotte	NL	Dr	Technical physician and researcher in the Radiology and Medical Oncology departments at Catharina Hospital, Eindhoven
Fritzsche	Marlene	D	Dr	Researcher and physician scientist specializing in AI-assisted healthcare and diagnostic imaging
Giannito	Caterina	IT	Assist Prof	Radiologist (MD, PhD) Head and Neck Imaging, Humanitas Research Hospital. Milan
Gonzalez	Camilia	AT	Assist Prof	Radiologic Technologist Medical University, Vienna
Gouroukou	Konstantina	GR		Medical imaging researcher and physicist, Foundation for Research and Technology - Hellas (FORTH)
Groot Lipman	Kevin	NL	Dr	Cardiothoracic Radiologist, MD, PhD, EBCR at UMC Utrecht
Guarnera	Alessia	IT	Dr	UniCamillus International Medical University, Rome, Italy
Hedderich	Dennis	D	Prof	Neuroradiologist and brain researcher, Technical University of Munich
Huisman	Merel	NL	Dr	Radboudumc - Nijmegen
Kim Hwan	Su	D		Radiology resident, Clinician Scientist, and lab leader at the Technical University of Munich
Klontzas	Michalis	GR	Ass Prof	Radiologist, Uniiversity of Crete
Kotter	Elmar	DE	Prof	Freiburg University Medical Center
Kvak	Daniel	CZ		Artificial intelligence (AI) researcher and the co-founder and CTO of Carebot, Birno
Linguraru	Marius	US	Prof	Professor of radiology and pediatrics, Children's National Hospital in Washington

MacRae	Daniel	NL	Dr	Researcher, PhD candidate specializing in Artificial Intelligence (AI) and Radiation Oncology
			Ass	
Malamateniou	Christina	UK	Prof	City St George's, University of London
Martins	Henrique	PT	Prof	Digital Health, Portugal
McEntee	Mark	IRL		Chair of Diagnostic Radiography University College Cork, Ireland
Morozov	Sergey	BE	Prof	Medlogic (BE) founder; Head of R&D @ 3R Swiss Imaging Network
Munro	Duncan	MT		Interventional and diagnostic radiographer, University of Malta
Muscogiuri	Emanuele	B	Dr	Radiologist, UZ Leuven University Hospital, Belgium
Nam	Jimin	US		Massachusetts Institute of Technology ,USA
Pinto dos Santos	Daniel	DE	Ass Prof	Universitätsmedizin, Mainz
Ramprabananth	Sivanandan	NO	Dr	Clinical AI Lead and Radiologist at Vestre Viken Hospital Trust, Norway
Rizk	Benoit	CH	Dr	3R - Swiss Imaging Network SA
Shelmerdine	Susan	UK	Prof	The Royal College of Radiologists
Singh	Yashbir	US	Ass Prof	Medical imaging - Topological data analysis - Machine learning - Generative AI, Majo Clinic
Skwara	Agnieszka	AT		Senior Project Manager at the European Institute for Biomedical Imaging Research (EIBIR), Vienna
Smirnov	Nikolai	D		Medical radiologist and medical AI project, Germany
Tejani	Ali	US	Dr	medical doctor, specializes in radiology, artificial intelligence (AI) and imaging informatics
Towbin	Alexander	US		Chair of Radiology Informatics, and associate chief of Radiology, Cincinnati Children's Hospital
Truhn	Daniel	D	Prof	Professor of Radiology, University Hospital Aachen
van Ooijen	Peter	NL	Prof	Data Science Center in Health (DASH), Jantina Tammes School for Digital Society, Technology and AIUMCG Groningen
Vrettos	Konstantinos	GR	Dr	Artificial Intelligence and Translational Imaging (ATI) Lab, Medical School, University of Crete.
Wong	Steven	SG	Dr	Radiologist, Chairman and Senior Consultant in the Hyperacute Care Division, Sengkang General Hospital
